Contents

Volume 38, Number 1, August 1997

Special Review Article

1 *J. D. Thomas:* The role of dissolved organic matter, particularly free amino acids and humic substances, in freshwater ecosystems

Original Articles

37 *Julie H. Winterbottom, Stuart E. Orton and Alan G. Hildrew:* Field experiments on the mobility of benthic invertebrates in a southern English stream

49 *Vladimir Matveev and Lilian Matveev:* Grazer control and nutrient limitation of phytoplankton biomass in two Australian reservoirs

67 *P. E. Schmid and J. M. Schmid-Araya:* Predation on meiobenthic assemblages: resource use of a tanypod guild (Chironomidae, Diptera) in a gravel stream

93 *Roger G. Young and Alexander D. Huryn:* Longitudinal patterns of organic matter transport and turnover along a New Zealand grassland river

109 *Bernhard Statzner, Kerstin Hoppenhaus, Marie-Françoise Arens and Philippe Richoux:* Reproductive traits, habitat use and templet theory: a synthesis of world-wide data on aquatic insects

137 *Perry E. Thomas, Dean W. Blinn and Paul Keim:* Genetic and behavioural divergence among desert spring amphipod populations

145 *Heinz Brendelberger:* Coprophagy: a supplementary food source for two freshwater gastropods?

159 *David P. Hamilton and Stuart F. Mitchell:* Wave-induced shear stresses, plant nutrients and chlorophyll in seven shallow lakes

169 *Keller Suberkropp:* Annual production of leaf-decaying fungi in a woodland stream

179 *María J. González and Alan J. Tessier:* Habitat segregation and interactive effects of multiple predators on a prey assemblage

193 *Malcolm H. McKee, Frederick J. Wrona, Garry J. Scrimgeour and Jospeh M. Culp:* Importance of consumptive and non-consumptive prey mortality in a coupled predator–prey system

203 *Thomas Wendel and Friedrich Jüttner:* Excretion of heptadecene-1 into lake water by swarms of *Polyphemus pediculus* (Crustacea)

209 *Stephan Hülsmann and Thomas Mehner:* Predation by underyearling perch on a population in a short-term enclosure experiment

Applied Issues

221 *Garry J. Scrimgeour and Patricia A. Chambers:* Development and application of a nutrient-diffusing bioassay for large rivers

233 **Book Review**

235 **Erratum**

Volume 38, Number 2, October 1997

Original Articles

237 *Sylvain Mastrorillo, Sovan Lek, Francis Dauba and Alain Belaud:* The use of artificial neural networks to predict the presence of small-bodied fish in a river

247 *Dean Jacobson, Rikke Schultz and Andrea Encalada:* Structure and diversity of stream invertebrate assemblages: the influence of temperature with altitude and latitude

© 1997 Blackwell Science Ltd

263 *Koenraad Muylaert, Andy Van Kerckvoorde, Wim Vyverman and Koen Sabbe:* Structural characteristics of phytoplankton assemblages in tidal and non-tidal freshwater systems: a case study from the Schelde basin, Belgium

277 *Javier Labon-Cervia, Carmen G. Utrilla, Pedro A. Rincón and Felipe Amezcua:* Environmentally induced spatio-temporal variations in the fecundity of brown trout *Salmo trutta* L.: trade-offs between egg size and number

289 *Ulrich Hopp, Gerhard Maier and Rainer Bleher:* Reproduction and adult-longevity of five species of planktonic cyclopoid copopods reared on different diets: a comparative study

301 *Robert C. Wissmar, Douglas N. Swanston, Mason Bryant and Katherine McGee:* Factors influencing stream chemistry in catchments on Prince of Wales Island, Alaska

315 *Rita Adrian:* Calanoid-cyclopoid interactions: evidence from an 11-year field study in a eutrophic lake

327 *Bente Clausen and Barry J. F. Biggs:* Relationships between benthic biota and hydrological indices in New Zealand streams

343 *John T. Lehman, Donna Marie Bilkovic and Chris Sullivan:* Predicting development, metabolism and secondary production for the invertebrate predator *Bythotrephes*

353 *M. Walls, C. Laurén-Määttä, M. Ketola, P. Ohra-Aho, M. Reinikainen and S. Repka:* Phenotypic plasticity of *Daphnia* life history traits: the roles of predation, food level and toxic cyanobacteria

365 *Susan E. Gresens:* Interactive effects of diet and thermal regime on growth of the midge *Pseudochironomus richardsoni* Malloch

375 *Beate Wolf, Peter Zwick and Jürgen Marxsen:* Feeding ecology of the freshwater detritivore *Ptchyoptera paludosa* (Diptera, Nematocera)

387 *Martin Dieterich, N. H. Anderson and Tracey M. Anderson:* Shredder–collector interactions in temporary streams of western Oregon

395 *Thomas M. Frost, Linda E. Graham, Joan E. Elias, Mark J. Haase, Donald W. Kretchmer and James A. Kranzfelder:* A yellow–green algal symbiont in the freshwater sponge, *Corvomeyenia everetti*: convergent evolution of symbiotic associations

Applied Issues

401 *Roland I. Hall, Peter R. Leavitt, John P. Smol and Norman Zirnhelt:* Comparison of diatoms, fossil pigments and historical records as measures of lake eutrophication

419 *Ken H. Nicholls:* Planktonic algae in western Lake Erie: the importance of temporal scale in the interpretation of change

427 *N. John Anderson:* Historical changes in epilimnetic phosphorus concentrations in six rural lakes in Northern Ireland

441 **Book Reviews**

Volume 38, Number 3, December 1997

Preface

445 *Ramesh D. Gulati and Bill DeMott:* Preface

Invited review papers

447 *Dag O. Hessen and Birger Bjerkeng:* A model approach to planktonic stoichiometry and consumer-resource stability

473 *Robert W. Sterner:* Modelling interactions of food quality and quantity in homeostatic consumers

483 *Michael T. Brett and Dörthe C. Müller-Navarra:* The role of highly unsaturated fatty acids in aquatic food web processes

501 *Peter Coutteau and Patrick Sorgeloos:* Manipulation of dietary lipids, fatty acids and vitamins in zooplankton cultures

513 *Dag O. Hessen, Hendrika J. De Lange and Ellen Van Donk:* UV-induced changes in phytoplankton cells and its effects on grazers

Lipids: seasonal variations, production and effects of physiochemical factors

525 *Michael T. Arts, Richard D. Robarts and Marlene S. Evans:* Seasonal changes in particulate and dissolved lipids in a eutrophic prairie lake

539 *Daniel A. Kreeger, Clyde E. Goulden, Susan S. Kilham, Scott G. Lynn, Sanhita Datta and Sebastian J. Interlandi:* Seasonal changes in the biochemistry of lake seston

555 *G. Ahlgren, W. Goedkoop, H. Markensten, L. Sonesten and M. Boberg:* Seasonal variations in food quality for pelagic and benthic invertebrates in Lake Erken—the role of fatty acids

571 *B. C. Wainman and R. E. H. Smith:* Can physicochemical factors predict lipid content in phytoplankton?

581 *Hakumat Rai, Michael T. Arts, B. C. Wainman, N. Dockal and H. J. Krambeck:* Lipid production in natural phytoplankton communities in a small freshwater Baltic lake, Lake Schöhsee, Germany

591 *Susan S. Kilham, Daniel A. Kreeger, Clyde E. Goulden and Scott G. Lynn:* Effects of nutrient limitation on biochemical constituents of *Ankistrodesmus falcatus*

597 *Michael T. Arts and Hakumat Rai:* Effects of enhanced ultraviolet-B radiation on the production of lipid, polysaccharide, and protein in three freshwater algal species

611 *Tatsuki Sekino, Masami Nakanishi, Yasuyuki Ishida, Shinichi Isomura, Shin Tsuge, Hajime Ohtani and Takashi Kimito:* Inter- and intraspecific differences in fatty acid composition of freshwater crustacean zooplankton

619 *M. Lürling, H. J. De Lange and E. Van Donk:* Changes in food quality of the green alga *Scenedesmus* induced by *Daphnia* infochemicals: biochemical composition and morphology

629 *Ch. Desvilettes, G. Bourdier, Ch. Amblard and B. Barth:* Use of fatty acids for the assessment of zooplankton grazing on bacteria, protozoans and microalgae

Effects of food quality on the life history parameters of *Daphnia* spp.

639 *Susan S. Kilham, Daniel A. Kreeger, Clyde E. Goulden and Scott G. Lynn:* Effects of algal food quality on fecundity and population growth rates of *Daphnia*

649 *William R. DeMott and Dörthe Müller-Navarra:* The importance of highly unsaturated fatty acids in zooplankton nutrition: evidence from experiments with *Daphnia*, a cyanobacterium and lipid emulsions

665 *Marcus Sundbom and Tobias Vrede:* Effects of fatty acids and phosphorus content of food on the growth, survival and reproduction of *Daphnia*

675 *Sari Repka:* Effects of food type on the life history of *Daphnia* clones from lakes differing in trophic state. I. *Daphnia galeata* feeding on *Scenedesmus* and *Oscillatoria*

685 *Sari Repka:* Effects of food type on the life history of *Daphnia* clones from lakes differing in trophic state. II. *Daphnia cucullata* feeding on mixed diets

693 *Michael Lürling and Ellen van Donk:* Life history consequences for *Daphnia pulex* feeding on nutrient limited phytoplankton

711 *Hendrika J. De Lange and Ellen Van Donk:* Effects of UBV irradiated algae on life history traits of *Daphnia pulex*

721 *Paul M. M. Weers and Ramesh D. Gulati:* Effect of the addition of polyunsaturated fatty acids to the diet on the growth and fecundity of *Daphnia galeata*

731 *Paul M. M. Weers, Klaas Siewertsen and Ramesh D. Gulati:* Is the fatty acids composition of *Daphnia galeata* determined by the fatty acid composition of the ingested diet?

739 *Marie-L. Montel and Nicole Lair:* Relationships between heterotrophic nanoflagellates and the demographic response of *Daphnia longispina* in a eutrophic lake with poor food quality conditions

A synthesis

753 *Ramesh D. Gulati and William R. DeMott:* The role of food quality for zooplankton: remarks on the state-of-the-art, perspectives and priorities

769 **Index to Volume 38**
